# How to Install the Printer on Windows Server 2012

## Step 1

After the successful installation of a Print Server go to the "Tools Menu" provided at the upper right hand corner.

In the Tools Menu go to the "Print Management" option and click on it.

#### Step 2

In the Print Management Window go to the "Print Servers" option and expand it. It will expand to show your Print Server, again expand this and you will find a "Printers" option available at the bottom of this Print Server. Right-click on the Printers option to "Add Printer".

德				Print Manag	gement
File Action	View Help				
🗢 🏟 🖄 🛅	0 🗟 🛛 🗖				
ዀ Print Manage	ement	Printer Name		Queue Status	Jobs In
🔺 📝 Custom F	ilters	🖶 Fax (redirec	ted 2)	Ready	0
👂 📝 All Pri	nters (2)	🖶 Microsoft X	(PS Document Writer	Ready	0
All Drivers (5)					
👂 📝 Printe	rs Not Ready				
👂 📝 Printe	rs With Jobs				
🛛 🖉 Print Servi	ers				
🔺 📄 mend	esktop11 (local)

Local Port	~
< Back Next >	Cancel
	address or hostname LPT1: (Printer Port) Local Port < Back Next >

After selecting the first option click on the "Next" Button.

## Step 4

As you click on Next button it will start searching for the Printer on already present on some other Server. After its Searching is completed click on the Next Button. Network Printer Installation Wizard

×

**Network Printer Search** 

Pick a printer to install.

Printer Name	Address
🖶 HP LaserJet 400 M401n (Hewlett-Packard)	192.168.1.138
	Search again

# Step 5

Now the Printer's Driver option will be available in front of you, here you can select the second option if you want to use an "Existing Printer Driver" or you can choose to "Install New Driver". After selecting the appropriate option click "Next".

# Step 8

Now your printer will be successfully installed. Click on the "Finish" button to finish the installation.

Now when you go to the Print Management Window you will see that your printer is installed and shown in the management Window.

Now this printer will be shown to all the users connected to your server and they don't need to install the printer separately on their system.
